

# Smart Philanthropy for Systemic Impact

AN INVESTMENT OVERVIEW FOR ADVISORS  
AND DONOR-ADVISED FUND LEADERS

## Why Invest With CARE

CARE partners with those who seek to transform entire systems through scalable, self-sustaining solutions. We provide the infrastructure and expertise to turn philanthropic funding into a springboard for permanent, global change.

## Our Value Proposition

### Systemic Change at Scale

We develop models that governments and markets adopt, embedding impact into national systems to reach millions of people.

### Efficient Delivery Platform

We operate as a connected global platform, enabling cost-effective and faster delivery rather than fragmented, project-based efforts.

### Local Leadership

We work through governments and community partners to chart their own futures and ensure solutions endure over the long term.

### Integrated Solutions

By combining health, nutrition, education, and financial tools, we solve poverty's interconnected challenges to unlock opportunity.

## Leverage That Multiplies Capital

CARE uses philanthropic capital to de-risk and scale solutions that governments and markets can adopt. This approach leverages every dollar to attract additional funding and build the infrastructure for long-term economic growth.

**\$2B+**

in co-investment mobilized from governments and private partners to scale CARE's models

**20+**

Countries with CARE models embedded in national and local government systems

**\$500M**

in financing unlocked for women entrepreneurs since 2021

## Impact That Compounds Over Time

CARE's interconnected work delivers measurable results today, while laying the foundation for long-term, system-level returns:

### Financial Independence

**\$18.85 return**

per \$1 invested in savings groups

### Girls' Education

**88% transition**

into formal school, training, or employment

### Food and Agriculture

**\$31 economic gain**

per \$1 invested in agriculture

## CARE's Delivery Platform

CARE forges strong local partnerships to deliver rapid crisis response and drive long-term change. By elevating local innovation and leadership, we apply proven global approaches that are tailored to community needs and build lasting trust.

**58M+**

people reached  
in 2025

**97%**

of staff are from the  
countries where they work

**90%**

of every dollar goes  
directly to programs

**121**

Countries  
served

## Key Investment Opportunities

CARE offers four investment-ready platforms where philanthropic capital can drive immediate impact and long-term systemic change.

### Unlocking Girls' Potential

Keep girls in school and support their transition into the workforce, creating a strong foundation for lifelong earnings and economic growth.

### Growing Women's Economic Power

Expand the world's largest women-led savings network to — fuel entrepreneurship, income growth, and long-term economic mobility.

### Transforming Agriculture and Food Systems

Help smallholder farmers move from subsistence to profitable, climate-resilient businesses.

### Innovating for Smarter, Faster Crisis Response

Build locally led, data-driven systems that protect lives when disasters strike.

## What To Expect From CARE

CARE offers a rare combination of global reach, local leadership, and proven efficiency that advisors and principals trust:

- Concierge-style engagement
- Strategic leadership engagement
- Curated travel to CARE's global work
- Thought partnership
- Clarity and responsiveness
- White glove impact reporting
